ABOUT US

MISSION

Our objective is a commitment to the highest quality security and customer service. The client satisfaction is our main focus

VALUES

There are several values which we hold in high regard, These values are charity, honesty, fortitude, reliability, integrity, temperance, faith, and hope.
VISION

Highly trained and efficient team and customer service personnel, ready for anything that may occur and quick to respond to customer needs and concerns.

Services

Enterprise Internet

Leased Line

highly secure and fast internet service. As if that is not enough, most reliable leased line providers including Metrotech offer symmetrical upload and download speeds. This means you're able to upload and download files and web pages at equal speeds.

MPLS VPN

Multi-Protocol Label Switching that speeds up and shapes the traffic flow. It is used within computer network infrastructures to speed up the time of a data packet to flow from one node to another.

WiMAX

WiMAX (Worldwide Interoperability for Microwave Access), also known as 802.16, is a newer network standard developed by IEEE that specifies how wireless devices communicate over the air in a wide area.
